Colors: White

| Blower Speed | Energy Usage | Air Flow | Particle Efficiency | dB(A) |
|--------------|--------------|----------|---------------------|-------------------------|
| Low | 11W | 22 cfm | 100% | regular use <56dB(A) |
| Med | 16W | 49 cfm | 100% | |
| High | 28W | 79 cfm | 100% | |
| Turbo | 46W | 150 cfm | 100% | |

Our technology is individually tested to guarantee better than HEPA, efficiency removing 99.99% of particulates @ 0.007 micron. This makes HealthWay the most efficient air purifier available.

FEATURES

- Particle efficiency - 99.99% @ 0.007 micron
- 6-stage VOC adsorption filter for heavy removal of harmful gases and odors
- Patented DFS technology efficiently removes up to 99.99% of airborne mold, bacteria, and viruses passing through the system
- Each machine is independently tested and certified to guarantee better than HEPA efficiency

healthway-hk.com 06.2021

- Substantial reduction in airborne microorganism chemicals, offensive gases, odors, and smoke.
- Less dust and dander, pollen, dust mite waste, bacteria, mold, fungi and virus protection
- Compact, ultra slim design
- Easy to maintain
- A clean and fresh smelling environment
- The revolutionary DFS technology reduces bioburden and inhibits microorganism growth passing into the system through microbiostasis condition
